Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from New University Algebra: A Theoretical and Practical Colleges Treatise Containing Many New and Original Methods and Applications for Colleges and High Schools In the preparation of the New University Algebra, care has been taken to preserve every feature of the original work, on which rested, in any degree, its claims to superiority. The aim has been to make that which was good, decidedly better. Hence the changes that have been made, consist, for the most part, in more apt arrangement, in large additions of original matter, and in presenting the whole in more attractive form. The treatise, as now submitted to the public, is, indeed, far more complete than the former, not only in the range of topics, but also in general discussions and practical applications. In many parts the methods of investigation are essentially different, - the object being, in some instances, to secure simplicity in logical arrangement, and in others, to establish principles and rules by more general and rigorous demonstrations. The articles on Inequalities, Differential Method of Series, and Interpolation, which, in the old treatise, appear as an appendix, have been elaborated, and made to take their appropriate place in the body of the work. The section on Radical Quantities is quite full, embracing the more important properties of Imaginary Quantities and Quadratic Surds, besides a complete logical development of the Theory of Exponents. As, in the authors New Elementary Algebra, the Binomial Theorem has been fully investigated with reference to integral exponents, it has been deemed unnecessary to repeat here the particular demonstration. Accordingly, the whole subject is deferred till the section on Series is reached, where a general demonstration of...
